# Wear your impact.

# tentree

tentree makes Earth-first essentials using the most sustainable (and comfortable) materials in the world, and the best part is, every item purchased plants 10 trees. Whether restoring land once tarnished by wildfire, giving recycled garments new life, or planting compostable products for the earth to break down, their mission is to nurture regeneration with the help of their growing community.

## 100 million trees. And counting.

According to tentree, a tree is never just a tree. With the help of their community, the millions of trees planted have rehabilitated ecosystems, created 2 million hours worth of work in communities around the world, and sequestered 30 million tonnes of CO<sub>2</sub> from the atmosphere. Imagine what 1 billion trees (by 2030) will do.

## Did you know?

**Regenerative Agriculture** is a system of farming principles and practices that seeks to rehabilitate and enhance the ecosystem.

tentree clothing made with 100% regeneratively grown organic cotton helps fight the climate crisis by pulling carbon from the atmosphere and sequestering it into the ground.

TRANSPARENCY SUSTAINABILITY

## A tentree sweatshirt is produced using 75% less water than other sweatshirts in your closet.

## Partner with tentree for better branded apparel.

Consumers expect brands like yours to initiate practices that will drive environmental progress. By using only organic and recycled materials, tentree is targeting the massive carbon footprint of the apparel industry, and cutting back on the wastewater and emissions created by traditional manufacturing. A partnership with tentree ties your brand to another company that is committed to regenerating ecosystems, capturing carbon, and supporting communities around the world.

## “Our vision is to make saving the planet simple.”

– David Luba, Co-founder at tentree
