

## Celebrating diversity through art

At UnitedHealth Group, we believe our shared Value of Inclusion helps us build a stronger, more connected culture so we can deliver Quality to each other and to those we serve.

In 2021 we launched our Celebrating Connections series to shed light on the diverse experiences of our team members, creating opportunities for us to come together to learn more about each other and the unique perspectives of the many communities we serve.

Now, we're taking those stories and putting them on canvas. Sort of.

We are excited to introduce *The Artist Series Collection*, featuring curated and limited-edition artwork of artists from diverse backgrounds, aligned with our [Employee Resource Groups](#) (ERGs):

- Asians United
- Black Experience
- Disability Inclusion
- Military Community
- Native Voices United
- Pride at UHG
- Unidos
- Women LEAD

Every Celebrating Connections month, our ERG members will select a socially-conscious artist whose style authentically represents and celebrates their community and the topics important to them.

The collections include digital art you can download for free and products available for purchase at the United Brand Shop, with 5% of proceeds from the sales being donated

to organizations chosen by our ERGs. [Download the digital art here](#) — including phone and desktop wallpapers, teams backgrounds and more.

- Visit the Brand Shop to [purchase Pride-inspired products](#).
- And don't forget — join one or more of our ERGs at [dei.uhg.com](http://dei.uhg.com). Allies are always welcome!

**Look out for a new custom collection to launch with each Celebrating Connections month.**
